

Expertise Feats Compendium

Supplement to Boothill 3rd Edition

Introduction and background

This compendium list all the available expertise feats that can be added as an option or supplement to the standard Boothill 3rd edition rules. This supplement adds an element of player character progression. The missing advancement / character building element has been a criticism to the system compared to e.g. D&D.

Only requirement needed is that players keep track of both the current available XP they have for purchasing skill points and attributes *as well as the total accumulated XP* earned throughout the lifetime of their character.

It becomes harder and harder to further improved ones advanced skills as you move up the expertise level ladder, which is also reflected in the mount of XP needed to be earned for the next tier as you go along.

Total Experience Advancement rule

- When a certain amount of total XP has been earned, the experience of the character grants the character the benefit that a bonus Expertise feat can be selected without any additional XP cost.
- This expertise feat reflects that the character has become more seasoned and experienced and develops his skills and abilities more advance levels
- The character must meet any requirements stated first before the Feat can be selected. The Player is allowed to wait selecting the bonus feat when reaching the XP threshold until the character meets all the requirements
- The same Feat can only be selected once.
